Description

iOS & Android Dual Phone Platforms Supported: GameSir X2 has been upgraded and equipped with Bluetooth to bring multiple mobile gaming experience to gamers. Controller-supported games are highly compatible with GameSir X2 Bluetooth, like Fortnite, COD: Mobile (iOS), Roblox and Asphalt 9 and even the Apple Arcade and MFi games. The Bluetooth 5.0 can provide an ultra-low wireless connection, which can ensure the players can become the unstoppable one to rule the game. ▲Cloud Gaming on Phones: GameSir X2 Bluetooth supports popular cloud gaming platforms such as, Xbox Game Pass Ultimate, Google Stadia, Nvidia GeForce Now and Vortex, etc. Bringing the outstanding cloud gaming experience for gamers to play hundreds of popular games like Cyberpunk 2077, Destiny 2, Gear 5 and Halo Collection from PC to your mobile phone. Classic ABXY Layout: Not only the improved D-pad, but also comes with the classic ABXY button layout this time on the GameSir X2 Bluetooth. Gamers can now use this more familiar and reliable Xbox-like ABXY layout to play your favorite games on you mobile phone. With the improved D-Pad, it's all about recreating the familiar gaming experience! Custom 3 Levels Turbo Function: Customize your turbo trigger and set the turbo frequency in 3 levels with a few steps before gaming, then fear not, release your power and conquer the battlefield, and be the one last standing. Customizable buttons includes: A, B, X, Y, L1, R1, L2, R2. 500 mAh Battery and Type-C Charging Port: GameSir X2 Bluetooth has a powerful long life 500 mAh battery which allows gamers to play games for about 20 hours under normal using. After 2 hours fully charging, GameSir X2 Bluetooth will be back as your most trusted friend in your every game.
