Description

Oral-B Vitality 300 Kids Frozen Electric Toothbrush D103.413.2K Parents often misunderstand what makes a kids toothbrush effective. It is NOT: stronger cleaning power The real challenge is: brushing consistency. A child brushing properly for 2 minutes every day with a gentle electric brush beats: rushed manual brushing inconsistent technique aggressive brushing habits This toothbrush is engineered around: habit formation + guided cleaning. Key Features Rechargeable kids electric toothbrush Frozen-themed design 2D oscillating & rotating cleaning action Built-in timer with quadrant alerts Round brush head design Designed for children’s oral care Gentle effective daily cleaning Cleaning Technology 2D Cleaning Action Oscillating movement Rotating movement Main Benefit Removes more plaque than manual brushing Brush Head Type Round precision cleaning head Smart Brushing Assistance Built-in Timer Helps maintain recommended brushing duration Quadrant Alerts Encourages balanced brushing across mouth sections Real Benefit Improves brushing habits and timing consistency Design Target Users Kids / children Theme Frozen character edition Purpose Make brushing more engaging and enjoyable for children Power System Type Rechargeable electric toothbrush Usage Daily oral hygiene routine Usage Benefits Ideal for: improving brushing consistency children learning proper brushing habits easier plaque removal compared to manual brushing making brushing routines more fun
