Product	Motorcycle Camera Clamp Mount 360°
SKU	cm-STY-G-29
Brand	Camera
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	\$30.00
Available quantity	0

Description

Super Camera Clamp 360° Rotation Handlebar Mount This type of mount solves a very different problem than suction mounts. A suction mount is about: temporary smooth-surface attachment. A handlebar clamp is about: vibration resistance under continuous movement. That distinction matters because motorcycles and bikes generate: constant micro-vibrations directional shocks rotational stress Cheap clamps fail there very quickly. Key Features 360° rotating double ball head Handlebar & roll bar clamp system Wide action camera compatibility Aluminum alloy reinforced structure Stable anti-slip grip design Horizontal & vertical shooting support Designed for bikes & motorcycles Hands-free action filming setup Compatibility Supported Cameras GoPro Hero 13 / 12 / 11 / 10 / 9 series Insta360 X5 / X4 / X3 / X2 / GO 3S DJI Osmo Action 5 Pro / 4 / 3 DJI Osmo Pocket 3 / 2 Insta360 Ace Pro series Other compatible action cameras Clamp System Mounting Range 0.78" - 1.89" roll bars / handlebars Mount Type Threaded tightening clamp system Main Purpose Secure cylindrical object mounting Rotation & Adjustment Ball Head Design Dual 360° rotating ball heads Shooting Angles Horizontal shooting Vertical shooting Tilted angle shooting Reverse positioning Build Quality Materials Aluminum alloy Nylon Stainless steel Benefits Improved durability Better vibration resistance Long-term outdoor reliability Weight Mount Weight 251g Stability Benefit Heavier reinforced structure improves steadiness during riding Usage Ideal For Motorcycles Bicycles Outdoor sports POV riding footage Travel filming Action recording
