## Description

Oral-B Oxyjet Set of 4 Nozzles ED17 This product exists because traditional brushing has a limitation: mechanical contact cannot fully clean tight interdental spaces. The Oxyjet system focuses on: flushing disruption rather than: direct scrubbing. That distinction matters. These nozzles are not replacements for brushing —they are enhancement tools for difficult cleaning zones. Key Features Replacement nozzle set for Oral-B Oxyjet Includes 4 nozzles Micro-bubble cleaning technology Helps remove food particles Targets hard-to-reach areas Supports gingival health improvement Designed to attack plaque bacteria Cleaning Technology Oxyjet Technology Innovative micro-bubble irrigation system Cleaning Method Forms millions of micro-bubbles Water + air mixture targeting plaque bacteria Main Purpose Interdental cleaning Gumline cleaning Hard-to-reach area support Oral Care Benefits Food Particle Removal Helps flush debris from tight spaces Gum Care Supports gingival health when combined with brushing Plaque Targeting Helps disrupt plaque bacteria buildup Compatibility Designed For Oral-B Oxyjet oral irrigator systems Package Contents Included 4 × Oral-B Oxyjet ED17 nozzles
