Description

Philips VoiceTracer Audio Recorder DVT1160 This product survives in the smartphone era because phones have a major weakness: friction. Unlocking.Opening apps.Notifications.Battery drain.Storage clutter. Dedicated voice recorders still win in one area:□ reliable uninterrupted capture. That’s why journalists, students, interviewers, and meeting users still buy them. Key Features One-touch instant recording Voice-activated recording Time-stamped recordings 8GB built-in storage Plug & play PC connection Up to 44 hours battery life Lightweight portable design Optimized for voice notes and meetings Recording Features Voice Activation Hands-free automatic recording Functionality Starts recording automatically when speech is detected Stops recording automatically during silence Main Benefit Reduced empty recordings Easier long-session recording File Management Time-Stamped Recording Automatically stores date & time with recordings Benefits Easier file organization Faster navigation through recordings Storage Internal Storage 8GB built-in memory Usage Supports multiple days of recordings Connectivity PC Compatibility Windows macOS Connection Type Plug & play USB connection Battery Battery Life Up to 44 hours runtime Usage Benefit Long recording sessions Reduced charging/battery replacement frequency Controls Instant Recording One-touch recording operation Quick Start Press and hold record button to power on and begin recording immediately Usage Scenarios Ideal for: Notes Meetings Interviews Lectures Voice memos Daily reminders
